

#1473 TYPE "C" VALVE SPRINGS

Checking pressures:

1.735"	90 Lb.
1.135"	300 Lb.(.600 lift)
1.035"	COIL BIND

Installed height is 1.735" from the bottom of the retainer. Cutting of the valve spring seat will be required to obtain the correct installed height. These valve springs are designed to be used with our #1476B retainers and #1495/1497 oversize valves.

Check for coil bind. Also check the retainer to valve stem seal clearance(at full lift) a minimum of .060 clearance is required.
